The **TECHNO EYE** is a quarterly publication of TESDA Regional Training Center - Korea Philippines Vocational Training Center, Davao with editorial office located at Buhisan Tibungco Davao City Philippines.

VISION

The premier Institute of Technology, Research and Development with appropriate incubation producing future Techno and Agri-preneurs, trainers and worker leaders.

MISSION

The premier Institute of Technology, Research and Development and provision of quality technical education and skills development programs anchored on the requirements of the industry and local communities through collaboration, relevant research and development, and extension services in pursuit of poverty reduction.

TESDA WAY

*All united we answer the TESDA call
We raise the TESDA Banner High
With our partners,
We serve ever proud and tall
From day to day we strive
To address the needs of our labour force
Provide the skills that open doors
Excellence and world classwork
Access to success for everyone
Put the power of information
To the hands that build the nation
Doing in the TESDA way
Rain or shine we keep alive our hopes and dreams
Of workers throughout this land
Doing the best that we committed we make our stand
Truly dedicated to task at hand
Put the power of information
Proper values and education
To hands that build the nation
Doing in the TESDA way
To the hands that build the nation
Doing in the TESDA way
More power to the TESDA way
Long live Tesda Way*

RTC-KorPhil Davao DIT Team Intensifies Efforts on Center's Online LMS and Website

Beyond leaps and bounds are the paces of Information and Communication Technology (ICT). This is one of the impetus reasons why ICT people almost never have relaxing minds in fact, others even say that "a programmer has no life". On the other side of the coin, this oddity of men and women in the ICT world have their edge over other occupations in this time of COVID-19 pandemic as they can work comfortably and effectively online...and which outputs became remedies to the educative havoc brought by the pandemic.

In this light where the Diploma of Information Technology (DIT) mentors and trainers became effective elements of the Center in implementing TESDA Central Office initiatives to combat the pandemic's hostile effects to the agency's programs with the support of the National TVET Trainers' Academy (NTTA) and experts of e- TESDA Office on the establishment of Online Learning Management System (LMS), its e-Learning packages and training of the non-IT trainers to facilitate e-Learning sessions over the Online LMS.

It can be remembered that in 2020, the DIT Team compose of Mr. Mario dela Cerna, Head of the DIT department, Mr. Rey Sanchez, DIT web developer and trainer and Mr. Raye Adrian Dayot, ICT equipment & network maintenance focal and DIT trainer created the Center's Online LMS, system for the online registration / enrollment, and RTC-KorPhil Davao's website that would help mitigate the havoc of the pandemic. Likewise, the DIT team members were the point persons of TESDA XI in implementing series of online trainings on Facilitate e-Learning Session (FeLS) to both public and private Tech-Voc trainers in Davao Region.

The results shown that the LMS is very effective, few difficulties found in two interfaces in the online enrollment system while glaring difficulties on non-IT trainers in creating e-Learning package based on TESDA ideal format were revealed. For this reason, the DIT department met with the administration and the Head of the Training department to find ways in mitigating if not solving the difficulties stated above. Intensifying the efforts of the DIT team was the first streak of light recommended by the Center management on the other hand, non-IT trainers who have difficulties in creating TESDA standard e-Learning package were advised to become Subject Matter Experts (SMEs) and DIT team will find e-Learning developers to partner with them to resolve the problem.

With extra efforts in limited time, Mr. dela Cerna looked for an IT firm and organized selected 3rd Year DIT students to help said company to develop TESDA standard e-Learning packages based on the SMEs' instructions; in this way the Center could save big budget in producing such considerable number of quality e-packs. Nonetheless, this initiative served as a pilot only. On the other hand, Mr. Sanchez with his DIT team mates studied the issues on the two interfaces of the online enrollment system to come up with the best solution in improving them and become friendlier to the users. Further, the DIT team gladly welcomed Mr. Alvin Banacia the newly recruited DIT teacher. The team is confident that with his skills and experience from the industry will help the DIT dept. in enhancing the established systems...and of course will also share extra efforts in the name of service.

Araceli Guazon is talking...

RTC-KorPhil Davao delegates attend 22nd Annual Conference on Fiscal, Administrative Management

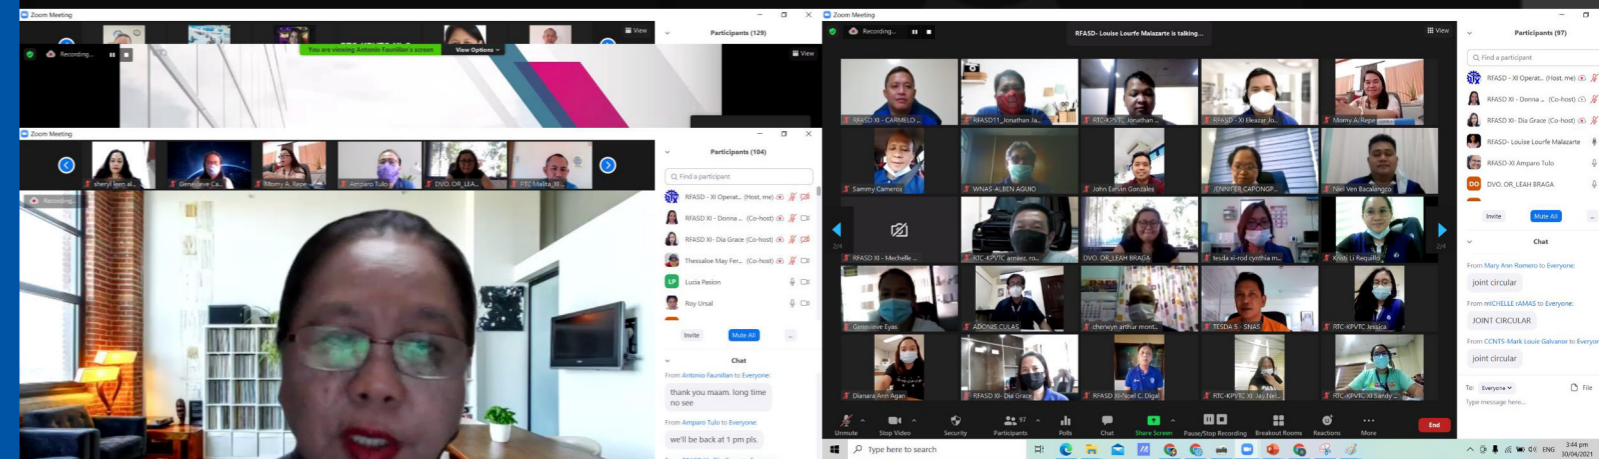

Delegates from the Regional Training Center – Korea-Philippines Vocational Training Center (RTC-KPVT) Davao attended the 22nd Annual Conference on Fiscal and Administrative Management (ACFAM) held last April 30, 2021, via Zoom.

Representatives from RTC-KPVT Davao were Engr. Constatino B. Panes Jr., Gil D. Gonzales, Marilou F. Coloma, Aenon Prince A. Alporte, Dianara Ann C. Agan, BAC members and other administrative employees.

During the whole-day virtual conference, there were discussion from the representatives of Civil Service Commission, Department of Budget and Management, and Commission on Audit that benefitted TESDA including RTC-KorPhil Davao with tips on how to improve its fiscal and administrative operations.

CSC Supervising HR Specialist Sheryl O. Yap started a talk about Alternative Work Arrangements. Next to her was DBM Chief Administrative Officer Antonio M. Faunillan Jr. who tackled PHILGEPS Posting, Opening of Account in the Virtual Store, and Opening of PHILGEPS Account. Lastly, COA Regional Director Atty. Roy L. Ursal discussed the TESDA XI Common Audit Findings.

ACFAM is being conducted annually to provide insights regarding financial and administrative management relevant matters.

KorPhil Davao trains farmers of Brgy. Lutangan, Kapatagan, Digos in Food Processing NC II

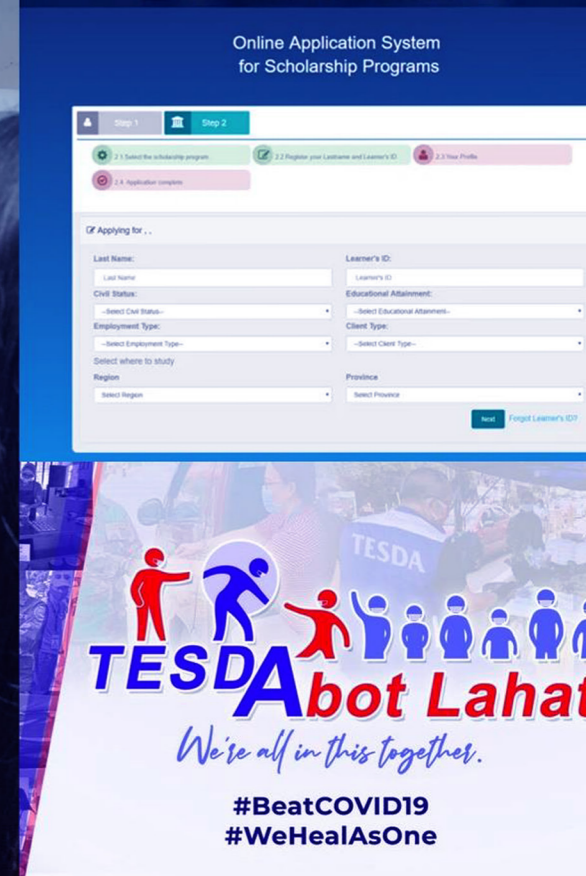

Vegetable growers in Sitio Lutangan, Kapatagan, Digos, Davao del Sur will gain knowledge on how to manage surplus perishable products in their farms as TESDA XI KorPhil Davao will deliver a 21-day Food Processing NC II under Mobile Training Program of the Center.

Twenty-five farmers, teachers, Indigenous People and uniformed personnel attended the Training Induction Program (TIP) conducted last May 12, 2021 in a joint collaboration of TESDA XI represented in the program by KorPhil Davao Training Department Head Ms. Marilou B. Coloma; Philippine National Police XI by PBGen Filmore B. Escobal and the Local Government Unit of Kapatagan by Hon. Juanito O. Morales.

Locals of the barangay said they are thankful for the training since they can now add value to their vegetables such Chinese patchay, tomatoes, cabbage, carrots and patatas, upscaling their agricultural skills from production and now with processing for a potential added income in the farms. With the training, farmers will be taught about fermentation to process Chinese patchay into kimchi, fermentation and pickling of tomato to produce ketchup and dehydration of potato. Further, sugar concentrated products such as puree and nectar of tomato and carrots will also be learned in the qualification.

Aside from vegetables processing, FP NC II include salting, curing and smoking for meat and fish products with the training duration from May 12, until June 25 handled by Ms. Theresa B. Rozaldo.

RTC-KorPhil Registrar's Office Implements on T2MIS Classification of Learner/Trainee/Student/Client Types

Pursuant to the advisory of the Davao City Provincial Office number 33 series of 2021 dated May 31, 2021, the Registrar's Office of the RTC-KorPhil Davao immediately acted on it to do its part with the agency's effort to continue to perform its mandate and serve the people amidst the ongoing COVID-19 pandemic, through the "TESDA Abot Lahat" slogan, TESDA provides skills training and livelihood programs to all its priority sectors and help them cope up with the arising crisis due to the pandemic.

This move of TESDA Training Management Information System (T2MIS) will pave the way to easily track the accomplishment with regards to Enrollment, Graduates, Assessed, Certified, and Employment (EGACE) by Classification, Province, Programs, and Client Type.

Significant Outcome/Result of the Event

This will intensify and efficiently monitor our priority sectors/classification that has reached out by our programs and services with the help of your institution.

Launching of Partnership and Capability Building of LTO and TESDA for Standardized Driver Education

On May 24, 2021, the Technical Education and Skills Development Authority (TESDA) XI and Land Transportation Office (LTO) XI have signed a Memorandum of Agreement (MOA) to align their driver education programs to complement existing training in driving motor vehicle and comply to the government directive on ease of doing business, for the benefit and service of the public wanting to gain TESDA competencies in Driving (NC II and NC III) and secure/renew LTO Driver's Licenses. The MOA was signed between the Regional Director of TESDA XI, Engr. Lorenzo G. Macapili, DTE, and Regional Director of LTO XI, Mr. Niel M. Cañedo, MBA, in the Regional Training Center – Korea-Philippines Vocational Training Center (RTC-KPTVC) Davao, Buhisan, Tibungco, Davao City.

This would entail that the TESDA national certificates would be acceptable as equivalent to the Theoretical and Practical Driving Certificates (TDC and PDC) of LTO, given that the holder has passed the written exam administered by TESDA. The TDC and PDC are the requirements for the application and renewal of an LTO Driver's License. Prior to that, LTO has conducted a Capability Building for the driving trainers of TESDA XI on May 21, 2021 in RTC-KPTVC Davao to train them to handle driving classes under the standards of LTO. A total of twenty-six (26) TESDA XI driving trainers were capacitated, coming from various institutions in Davao Region: Carmelo Delos Cientos National Trade School (CCNTS), Davao National Agricultural School (DNAS), Davao Oriental Polytechnic Institute (DOPI), Wangan National Agricultural School (WNAS), San Isidro Manpower Training Center (SIMTRAC), Provincial Training Centers (PTC) of Davao City, Davao de Oro, Davao del Norte, Davao Oriental, Davao Occidental, and Davao del Sur, and RTC-KPTVC Davao. They were then assessed by LTO on May 24, 2021, prior to the signing of the MOA.

RTC-KorPhil Davao; Venue for Multiplier Program in Pipefitting (Metallic) NC II

Considering the suitability of conducting the multiplier program for the newly migrated Training Regulations (TR) in Pipefitting (Metallic) NC II, RTC-KorPhil Davao was chosen to be the venue of the event for its apt facilities and for the availability of needed equipment.

On May 24, 2021, the Regional Lead Trainer, Engr. Efren Ojeda currently the Officer-in-Charge of City Training Center (CTC-IGaCoS) rolled-out the multiplier program for above-said newly migrated TESDA Qualification at the RTC-KorPhil Davao. This event was participated by selected trainers of TESDA Technology Institutions (TTIs) in Davao Region and related industry/companies such as Davao City Water District to become Provincial Lead Trainers if successfully passed the assessment. One of the participants of this program was Mr. Joseph Junio, the Head Trainer in the Diploma in Welding Technology of RTC-KorPhil Davao.

According to Mr. Junio, this multiplier program is very important as this will upskill the participants with the trending standards of the industry in putting-up complex piping system for oil and gas, for refineries and water sewerages. In comparing the old TR to this migrated one; the assessment of the old TR was for individual whereas in the new one, it is for team or group assessment as it will be done by phase and connecting/fitting individual's work to complete the complex pipefitting system. It is a common knowledge that there are types of pipes for pipefitting such as plastic, aluminum etc but for this new TR, it is specified for metallic (mild steel).

Competencies needed in this migrated TR includes the knowledge, Skills and Attitude (KSA) needed for underground piping system hence angles of elevation based on law of gravity or pressure, identification of looping points, accurate reading of working plans and navigation are crucially needed.

Regional Training Center- Korea Philippines Vocational Training Center, Davao Buhisan, Tibungco, Davao City; Mobile No. 0939-9242092 (Smart) Email: rtcdavaocity@tesda.gov.ph Website: www.korphildavao.com The program scheduled for four days and was culminated on May 27, 2021 with the competency assessment to which Mr. Joseph Junio successfully passed it.

Significant Outcome/Result of the Event

This will open up the gate of offering the training and assessment of Pipefitting (Metallic) NC II in the Davao Region to produce certified skilled workers in this discipline that will entail employment in both domestic and abroad demands.
